Results-driven UI/UX Designer with a passion for crafting user-centred digital experiences. Proven ability to balance creative vision with technical feasibility, driving design solutions that delight users and exceed business objectives. Skilled in human-centered design principles, design systems, and collaborative design methodologies.

Experience

UIUX Designer

1 November 2025 – 31 January 2026

Aliste noida

- Conducted user research, including interviews, surveys, and usability testing, to identify user needs and pain points.
- Developed wireframes, mockups, and prototypes to effectively communicate design ideas and interactions.
- Collaborated with developers to ensure seamless implementation of design solutions and maintain design consistency.
- Iterated on designs based on user feedback and analytics data, resulting in a 15% improvement in task completion rates.

Projects

Dr app

Designed and developed a clinic management app that allows doctor to manage appointments, patient profile and digital prescription in one platform; implemented secure data storage, search filters and clean user interface for smooth daily operations.

QR code scanner app for fun park

Fun park QR code scanner is a simple and fast gate entry verification app designed especially for fun park gatekeepers. Using this app, staff can quickly scan visitors wristband or tickets and instantly see whether the guest is allowed to enter a specific zone or ride.

Mini ecommerce app

Ministore is a lightweight and easy to use shopping app designed for small businesses and customers who want a smooth online buying experience.
